Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 08/19/2010 has been entered.

Allowable Subject Matter

Claims 1, 4-9, 11-15, 30, 33-38, 40-44, 50-53 allowed.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 30 and 53 and their respective dependent claims, when considered as a whole, are allowable over the prior art made of record.

In particular, independent claims 1 and 30, each as amended, now require associating at least one control in the control tree with another control in the control tree using an event notification mechanism, wherein the event notification mechanism allows the at least one control to register with the another control in the control tree for events that the another control raises, and wherein the at least one control in the control tree operates to be updated once the at least one control receives an event notification from the another control in the control tree through the event notification mechanism. The

above limitations when considered together with the limitations requiring the control tree, which is a logical representation of a graphical user interface (GUI), and generated from a Document Object Model (DOM) tree that is constructed from a XML stream obtained from different sources, are not taught either alone or in combination by the prior art of record. Independent claim 53 also recites similar limitations with narrower scope. Therefore, independent claims 1, 30, 53 and their respective dependent claims, when considered as a whole are considered allowable over the prior art made of record.
